RACCORDS SYMÉTRIQUES INOX STAINLESS STEEL SYMETRICAL COUPLINGS

RACC6503

Raccord symétrique à douille annelée réduite à verrou avec collerette
Reduce hose coupling with lock and collar

Corps : Inox CF8M
Joint : FKM
Température de service : 10°C / +180°C
Pression de service : 16 bar

Body: Stainless steel CF8M
Gasket: FKM
Working temperature: -10°C / +180°C
Working pressure: 16 bar

DN			L	Kg	Ref.
	mm	inch

J7240

Joint de bride qualité "Oiltec" sans amiante - PN10/16

"Oiltec" quality asbestos free flange gasket - PN10/16

Épaisseur : 2 mm jusqu'au DN 250, 3 mm au delà.
T° continue : +250°C (se reporter au passeport)
Feuille de haute qualité composée d'un mélange de fibres minérales résistantes aux T° élevées et de fibres aramides avec NBR spécial comme liant.

Thickness: 2 mm till DN 250, 3 mm over DN 250.
Continuous T°: +250°C (check the technical sheet)
High quality sheet containing mixture of T° resisting mineral & aramid fibres with a special NBR rubber binder.

EQBRCACGSTD

Équipement pour appareils de robinetterie standard à brides

Equipment for standard valves

Composé de :

- 2 brides à collerette acier au carbone
- 2 joints sans amiante qualité "Oiltec"
- Boulonnerie acier zingué Classe 8.8

Included:

- 2 carbon steel welding neck flanges
- 2 «Oiltec» quality asbestos free gaskets
- Zinc steel bolts & nuts Grade 8.8

EQBRCACGVPW

Équipement pour vannes papillon oreilles de centrage

Equipment for wafer butterfly valves

Composé de :

- 2 brides à collerette acier au carbone
- Boulonnerie acier zingué Classe 8.8

Included:

- 2 carbon steel welding neck flanges
- Zinc steel bolts & nuts Grade 8.8

EQBRCACGVPL

Équipement pour vannes papillon oreilles taraudées

Equipment for lug type butterfly valves

Composé de :

- 2 brides à collerette acier au carbone
- Visserie acier zingué Classe 8.8

Included:

- 2 carbon steel welding neck flanges
- Zinc steel bolts & nuts Grade 8.8

EQBRCACGVG

Équipement pour vannes à guillotine
Equipment for knife gate valves

Composé de :

- 2 brides à collerette acier au carbone
- 2 joints sans amiante qualité "Oiltec"
- Boulons et vis acier zingué Classe 8.8

Included:

- 2 carbon steel welding neck flanges
- 2 "Oiltec" quality asbestos free gaskets
- Zinc steel screws, bolts & nuts Grade 8.8

EQBRCACGCB16

Équipement pour clapets à double battants
Equipment for dual plates check valves

Composé de :

- 2 brides à collerette acier au carbone
- 2 joints sans amiante qualité "Oiltec"
- Boulonnerie acier zingué Classe 8.8

Included:

- 2 carbon steel welding neck flanges
- 2 "Oiltec" quality asbestos free gaskets
- Zinc steel bolts & nuts Grade 8.8

EQBRCACGBS16

Équipement pour clapets à simple battant
Equipment for single swing check valves

Composé de :

- 2 brides à collerette acier au carbone
- Boulonnerie acier zingué Classe 8.8

Included:

- 2 carbon steel welding neck flanges
- Zinc steel bolts & nuts Grade 8.8

EQBRCACGDI

Équipement pour compensateurs de dilatation
Equipment for expansion joints

Composé de :

- 2 brides à collerette acier au carbone
- Boulonnerie acier zingué Classe 8.8

Included:

- 2 forged steel welding neck flanges
- Zinc steel bolts & nuts Grade 8.8
