

WAFER TYPE DOUBLE PLATE CHECK VALVE

TECHNICAL PASSPORT

**DOUBLE PLATE CHECK VALVE
DUCTILE IRON BODY
BETWEEN FLANGES PN10/16 / ASME B16.5 Class 150**

CB4448-EP

APPLICATION

The swing check valve TECOFI is suitable for non-loaded fluid transfer applications under regular non-pulsating conditions.

Area of use: pumping, water supply, air conditioning system and heating, chemical industry, hydraulic installations.

Fluids: hot water, cold water, all compatible fluids.

GENERAL CHARACTERISTICS

Range: from DN40 to DN800.

- Double check valve.
- Symmetrical flow with full opening.
- The mounting direction is indicated by the arrow on the body.
- Robust, lightweight and economical construction
- Small face to face dimension requiring no maintenance.
- Low pressure losses.
- Mounting on horizontal or vertical piping.
- Closing assisted by stainless steel spring preventing the propagation of water hammer.

STANDARDS

Design	Design according to standard EN 16767. Meets the requirements of European Directive 2014/68/UE: «Equipment under pressure» modulate H
Face to face	Face to face according to EN 558 serie 16
Connection	Mounting between flanges: PN10/16 according to EN1092-1 and ISO7005-1. in accordance with ASME B16.5 Class150
Tests	Hydraulic tests according to EN12266-1, DIN 3230 and ISO 5208: - Body : 24 bar - Seat : 17.5 bar

WAFER TYPE DOUBLE PLATE CHECK VALVE

TECHNICAL PASSPORT

CB4448-EP

WORKING CONDITIONS

Maximum working pressure : 16 bar
Back pressure for sealing : 2 bar
Maximum working temperature : -5°C / +120°C

MOUNTING

Horizontal:

For horizontal mounting, the axis of the check valve must be vertical.

Vertical:

Vertical mounting with ascending fluid.

⚠ During the mounting it is recommended to maintain a distance of 3 to 5 times the minimal diameter upstream and downstream of an elbow or appliance. This makes it possible to stay out of areas of turbulence likely to increase the risk of wear.
At the discharge of a pump it is advisable to carry out the assembly in accordance with the **FD CEN/TR 13932** standards
