PRESSURE GAUGE WITH GLYCERIN BACK CONNECTION MALE BSP

MA 5103

APPLICATION

Suitable for all gaseous and liquid media that will not obstruct the pressure system or attack copper alloy parts.

GENERAL CHARACTERISTICS

Wide range of measures available, contact us.

Accuracy class : 1,6 for DN63
1 for DN100

Glycerin filled.

CONSTRUCTION

3	1	Mechanism	Brass
2	1	End	Brass
1	1	Casing	Stainless Steel + Glycerine
Pos.	Qty.	Description	Material

DIMENSIONS

DN	b1	b2	f	G	Weight (kg)
63	32	56	-	1/4"	0,21
100	48	81,5	30	1/2"	0,8

WORKING CONDITIONS

Ambient temperature : - 20°C / + 60°C.

Maximum temperature of fluid : 60°C.

STANDARDS

Standard pressure entry with parallel thread and sealing to EN 837-1.
