

## **Management and Environment Policy**

### **Top management commitment**

Professionals of industrial valves, our vocation is to satisfy in a total and durable way the needs of our customers and interested parties.

Our strategic vision is totally focused on quality and respect for the environment and aims to ensure the development and sustainability of our company.

In line with this strategy, our main objectives are:

- 1. Improve business performance and secure payments.**
- 2. Continue our development projects at the level of the big export.**
- 3. Always comply with the regulatory and legal requirements applicable to our business and environmental aspects.**
- 4. To control and reduce as much as possible our environmental impacts.**
- 5. Ensure the ongoing search for the efficiency of our processes by improving our flows.**
- 6. Sustain supply with our strategic suppliers.**

I pledge to put all my energy into maintaining and improving this ISO 9001-14001 organization.

D. STRAZZERI  
Chairman
