

Tecofi 
VALVE MANUFACTURER - FRANCE

Our environmental 
Commitment

OUR ECO-CHAINE

Our servers were relocated to a data center to lower power consumption.

1

Our efforts in the office

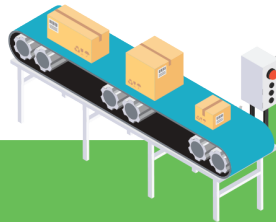

54% less paper used over the past five years.
Power consumption reduced by **60%** in our offices thanks to LED lights.

Hybrid or 100% electric vehicle fleet.

Eco-Responsible Production

We decreased gas consumption by **66,8%** for heating of our Corbas warehouse following national ordinances : «Decrets Tertiaire» and «BACS».

3

Local & Recyclable Packaging

We reduced our wood waste by **46%** over the last 4 years thanks to improved packaging of our imports (Saving 30 tons of wood).

92% of recycled waste saves energy and water and reduces CO2.

LOCAL SUPPLIER

- ✓ Eco-design
- ✓ Local sourcing of raw material
- ✓ 100% recycled cardboard

Verified Transport

We work with **ISO14001** certified transporters
Truck fleets meeting minimum EURO 5 emission standards and with the latest generation of trucks that pollute less.

4

Increasing our use of **rail transport** reduces the our importation's environmental impact.

Our Promise

Preserve water as a natural resources...

All of our valves are **100% watertight!**
Our valves are tested before being put on the market to reduce leaks and water loss.

...and help you use less energy!

Our valves have **reduced operating torques** to allow for smaller electric motors, reducing power consumption.

TECOFI is committed to our, environmental policy!

We guarantee you a partner who adopts a more sustainable management, committed and respecting the ECOVADIS requirements in terms of environment,

OUR CERTIFICATIONS

ISO 9001 - ISO 14001

We have been ISO 9001 certified for more than 20 years. This international certification guarantees the optimal quality of management to offer you the best service. Thanks to our environmental management system, we also have the ISO 14001 certification, which confirms our environmental protection efforts.

CE Ex EUROPEAN DIRECTIVES

- › **DESP** : European Directive 2014/68/EU "Pressure Equipment Directive".
- › **ATEX** : Directive 2014/34/EU (potentially explosive atmospheres).
- › **Machinery Directive** : 2006/42/CE.
- › **ADR** : EN14432, all our valves are tested in accordance to the ADR European Standard.

WATER CERTIFICATIONS

OTHER CERTIFICATIONS

Quality guarantee for solutions meeting international standards!

We believe in safe water available to everyone!

We are collaborating with the international organization «Hydraulique Sans Frontières», which is specialized in water and sanitation. Our mission will be technical training in industrial valves and supplying TECOFI valves.
